THIS DAY IS REMEMBERED IN FREDAY, OCTOBER 21, WHEN NEW YORK WILL BE MADE A THUNDERBOLT PLATE IN THE HISTORY

The photograph shows a black-headed sandpiper (Cathartes aura) sitting on its nest. The picture is one of many similar pictures taken by Messrs. W. C. and E. C. BAKER, Barrow, New Alaska. They are efficient observers of bird life.

THE COMMITTEE, NATHAN, AND STAFF OF THE ROCKAWAY HOSPITAL.

The group was taken in the presence of a large attendance of the community in front of the hospital in the city of New York in the month of May, 1918. The photograph is one of many similar pictures taken by Messrs. W. C. and E. C. BAKER, Barrow, New Alaska. They are efficient observers of bird life.

A VOLCANIC CATASTROPHE IN JAPAN.—THE EJECTION OF SLANT CLUSTERS.

On May 16 of this year the crater of Mount Fuji, in Japan, became suddenly active, and poured forth columns of boiling mud, which overwhelmed the surrounding district, and claimed their victims. The mud flowed into three streams, and in a short time the 144 villages that were built upon its slopes were, either wholly or partly, buried. The mud, which was a mixture of water, earth and volcanic materials being destroyed and many villages, as well as the people, were killed. It is almost impossible to estimate the loss of life and property. The mud was so thick that it was impossible to walk on it. The mud was so thick that it was impossible to walk on it. The mud was so thick that it was impossible to walk on it.

A BARRACK FOR THE FRENCH GOVERNMENT.—STILES AMERICAN ARMY STORES IN FRANCE.

Now containing a large part of the supplies of the American Expeditionary Force in France, the American Government sold the barracks to the French Government for a sum estimated at between 1,000,000 and 2,000,000 francs. This is a handsome price for one of the largest of military barracks in the world.—"STILES ARMY."
